

INVESTOR OVERVIEW

The Flywheel Fund is a member-managed VC fund, where accredited investors pool their money to invest in **early-stage tech startups** based in Indiana. Investors invest annually in a fund that pools money to make monthly investments in **Indiana-based** tech companies. **No prior investing experience** is required, but investors must be accredited (as defined by the SEC) and can invest **as little as \$10,000**. Flywheel's structure is unique in that it:

Provides support to the local startup ecosystem by investing in local and regional companies

Facilitates connections to other local investors

Educates new investors about the angel investing process

Provides venture returns and diversification, all at a comparatively low entry cost.
